Professors McKee, Weinstein. Assistant Professor Clower.

Programs of Study

The institute offers a graduate program in the following area:

- Master of Science with a major in applied economics.

Interdisciplinary Minor in Alternative Dispute Resolution

A minor in alternative dispute resolution requires a total of 21 hours, including 9 advanced, and consists of AECO 4000, 4120, 4420 and COMM 2025, plus three courses from the following list chosen in consultation with an undergraduate adviser in the Institute of Applied Economics and representing at least two different academic departments: AECO 4020, BLAW 3430, CJUS 3210, MGMT 3870 or PSYC 3640.

Graduate Degrees

The Institute of Applied Economics offers a professional program leading to a Master of Science with a major in applied economics.

Faculty from the institute also participate in a program leading to a Master of Science with a major in interdisciplinary studies administered by the School of Graduate Studies.

The goal of these degree programs is to prepare recent graduates and practitioners for careers in business and industry, government, and the nonprofit sector. Interested students should contact the director or graduate adviser of the institute for a list of current course offerings.

The institute is affiliated closely with the University Center for Economic Development and Research, which provides economic and public policy research and consulting services to organizations in the private,

nonprofit and public sectors. Projects conducted by the center offer students of the Institute of Applied Economics both professional development and career opportunities.

Courses of Instruction

All Courses of Instruction are located in one section at the back of this catalog.

Course and Subject Guide

The "Course and Subject Guide," found in the Courses of Instruction section of this book, serves as a table of contents and provides quick access to subject areas and prefixes.

Faculty

Professors Eve, Ingman, Swan. Associate Professors Lusky, Turner.

Introduction

Established in 1967, the Department of Applied Gerontology offers programs at the undergraduate and graduate levels to prepare students for careers in the field of aging. Career opportunities for graduates exist in retirement and long-term care facilities, government planning agencies and community service programs, as well as business and industry.

Flexible scheduling of courses allows currently employed professionals to earn either a degree or a certificate while maintaining their employment.

The department conducts research on various social, psychological and policy aspects of aging; organizes continuing education programs for people employed in the field of aging; and provides technical assistance to groups and organizations in the field.
