

Attention All Undergrad Students!

- Do you need an upper level credit?
- Are you interested in learning more about HIV/AIDS?
- Do you like classes that involve critical thinking and interesting discussion?
- If so, then you should take...

PSYCH 4300/5300

Psychosocial Issues in HIV/AIDS

- Enroll now for the spring semester! The class is limited in size, so don't miss out.
- Class is taught by Dr. Mark Vosvick
- Come and experience what has been described as "the best class at UNT"

Grad Students: This course is also offered to grad students interested in issues in HIV/AIDS and will require additional grad level work.
