Computing Resources for Students at UNT

The University of North Texas offers numerous computing services for students, many of which are provided by the Computing and Information Technology Center (CITC).

CITC Helpdesk

The CITC Information Technology Helpdesk is located in the Information Sciences Building (ISB) room 119, directly across from the Science and Technology Library.

<http://www.unt.edu/helpdesk>

If you don't know where else to call, or when no one else can help you with your computer on campus, call or send mail to the Helpdesk: **940-565-2324**
helpdesk@unt.edu

For “one-stop shopping,” take the Student Computing Services tour:
<http://helpdesk.unt.edu/studenttour/>

My UNT

The *My UNT portal* allows you to: Register for classes; Pay your tuition and fees; See your financial aid; View your grades:

<http://my.unt.edu/>

UNT Account Management

The Account Management System is where you can change or reset your password and configure your e-mail preferences.

<http://ams.unt.edu>

EagleMail, Personal Web Hosting, and Online Storage

NOTE: Students are required by University policy to read their official UNT E-mail. You can forward your UNT E-mail to your commercial E-mail account.

Read your UNT E-mail by visiting:

<http://eaglemail.unt.edu>

To create your personal web page, visit the following site:

<http://people.unt.edu/>

UNT provides centralized digital storage for your computing work here:

<http://untss.unt.edu/>

Wireless Networking at UNT

The wireless network at UNT is called Eaglenet. For further information see:

<http://wireless.unt.edu/>

Network Access in Dorms

All dorms are connected to the campus network via Ethernet. ResNet, the dorm network, is now managed by Apogee. Students may use a hub or switch and connect 2 computers (per login). There is additional bandwidth set for one gaming device (Playstation, etc.) each. Additionally, wireless access will be deployed in all areas of the dorms (including dorm rooms) by July 2008. For more information, see:

<http://apogeenet.net>

The dorms also have small computer labs providing access to the University Network and the Internet. Admission to these labs is gained by signing up at the dorm front reception desk.

General Access Computer Labs

UNT's 14 General Access Labs are open to anyone with a valid UNT ID card. There are labs throughout the main Denton campus, one at the Research Park, and one at the UNT Dallas Campus. The lab in the Information Science Library (ISB 110) has adaptive hardware and software for students with special needs. For more information, including lab hours, see:

<http://www.gal.unt.edu/>
